At 2:45 o'clock the fire is burning furfously, and it appears that the building is doomed, though it is not thought there will be a spread of the flames. This store is one of the largest in the city, and occupies one of the most prominent business locations. It is filled with an extensive Christmas stock, and the loss will be very heavy. The stock probably will amount to \$75,000 in value, and the store is one of the most valuable pieces of business property in Petersburg.

In Disgraceful Retreat

El Paso, Texas, November 25.—
The Federal forces which have engaged General Francisco Villa's rebel troops near Tierra Blanca for the last two days, have been defeated and routed, according to an official message sent to-night by General Francisco Villa, commander of the rebel forces, to the rebel chiefs at Juarez.

General Villa said in the message that the Federal troops were in a edisgraceful retreat? to the south, and that his forces had captured all their artillery and three of the seven trains on which they had come to the battlefield.

Fierce fighting was in progress late to-night on the west flank of the rebel troops south of Juarez, where General Marcelo Caraveo, commander of one of the Federal columns, is reported making a desperate attack on this section of Villa's forces in an attempt to break through to Juarez.

At the centre and east wing of Villa's army the fighting seems to have subsided, and only an occasional shot is exchanged.
